SKILLS

Soft Skills
- Time management
- Responsibility
- Fast Learning
- Attention to details
- Problem-solving
- Creativity

Technical Skills
- Mathematics
- **Programming Languages** : C++, Python, HTML, CSS, JavaScript(with Node.js)
- **Database** : MongoDB, PostgreSQL, MySQL
- **Tools** : Postman, Git, AWS

PROJECT

Rental Car Booking Project (CEDT)
- A system for users to book cars from providers, with admin management.
- **Database course** : Created a PostgreSQL database with functions for data search.
- **Backend course** : Developed a REST API for user interaction, tested with Postman.

Find Your Element Website Project (CEDT)
- The website lets users input chemical element details like atomic number or symbols. It uses a REST API to fetch and display information about the searched element. The project is hosted on AWS
